Business Only Broadband Provides Cost-Effective, Diverse Bandwidth for ProviNET Solutions

Westmont, IL – November 1st 2010, – Business Only Broadband (BOB) announced today that they are providing ProviNET Solutions with diverse, Ethernet Internet connectivity for ProviNET Solutions' new Tinley Park headquarters.

Business Only Broadband's wireless network is diverse from the existing Telco, CLEC, and Cable providers' infrastructure and provides 100% diverse, highly reliable and cost-effective network connectivity. "ProviNET Solutions saw the value of the diverse, cost-effective bandwidth BOB could deliver to meet their data network requirements," said Alan Rosenberg, CEO of Business Only Broadband.

"Diverse, cost-effective, scalable bandwidth is critical for our data network. As a technology company which houses a major data center, an outage would be catastrophic," said Carl Goodfriend, CIO, ProviNET Solutions. "We have been so impressed with the BOB network and the redundancy that we can achieve, we will be recommending it to our clients as well."

ProviNET Solutions is a full-service IT company that offers a comprehensive spectrum of technology products and services, and their tight-knit group of experienced, industry-certified personnel is focused on customer satisfaction. As a reputable and highly successful organization, ProviNET is able to assess their clients' unique needs and develop strategies with the latest technologies available to deliver customized solutions their clients can trust. ProviNET supports a variety of commercial clients throughout the country and is headquartered in Tinley Park, Illinois.

Business Only Broadband owns and operates the largest, most reliable, high speed; low latency fixed wireless broadband networks in Chicago and New York.
