

Mobile AIO

Touchscreen Computers for Healthcare

Medical Grade Power - 24/7

Beautifully designed anti-microbial touchscreen computers in various sizes that can withstand millions of touches.

Battery powered to provide uninterrupted workflow in the healthcare environment, ideal for tracking and documenting care services and medication management.

Predictable, Successful Outcomes

Manage Your Risk

Pioneer Mobile AIO touchscreen computers offers embedded privacy screens and hidden USB ports to protect your valuable patient information. Battery power improves patient safety and reduces risk of falls and tripping hazards from trailing cables.

Make Technology Work for You

Make down-time for you, not your laptop! With RxChange Hot Swappable Battery System, the Mobile AIO is charged and ready to go when you are. Documenting at Point of Care is key to ensure predictable, successful outcomes for you, your staff and most of all your patients.

Medical Grade Tough

Ruggedized, anti-microbial housings, screens that can withstand millions of touches, military grade drop tested, and industry rated to protect from dust and liquid spills. These Mobile AIO touchscreen computers are specifically designed for a long life in Healthcare.

Configurable to your Needs

Pair with a Mobile Workstation or MedCart with VESA mounts and arms; add on Keyboard/Mouse, Holders, Card Scanners, Biometric Readers and more to suit your needs.
