

Is it time for your EHR tuneup?

Just like any automobile, your EHR software needs regular maintenance to ensure it operates in a healthy fashion! Whether a quick oil change and tire rotation, or if your check engine light is on and smoke is coming out from under the hood, an “EHR Tune Up” is a great idea for any organization.

At ProviNET, we understand that as your EHR ages, you will see software enhancements, regulatory and requirement changes, and user turnover. In lieu of these changes; a flexible EHR must change with the organization and ProviNET has distinguished experience with helping organizations continually maximize the full benefit of what their EHR has to offer.

Don't wait for the check engine light, but instead invest in regular “EHR Tune Ups” to to ensure you are efficiently operating at full speed!

50% OFF

- EHR Regular Tune Up ongoing subscription models available, as well as one-time EHR Tune Up projects
- Any reports/forms from the ProviNET Custom Library that are identified as needs during the discovery process will be available at 50% off for EHR Tune Up customers.

CUSTOMER TESTIMONIALS

Sponsored by the Franciscan Sisters of Chicago

“Collaborating with the ProviNET team has assisted us in establishing best practices while optimizing our utilization of the EHR software. We certainly have come to value their expertise immensely.”

Kathleen Kelly, Vice President of Clinical Services at Franciscan Ministries

“From the beginning of the project to the end, we were thoroughly impressed with ProviNET’s service and knowledge. The ProviNET team provided subject matter expertise on the Vision application, both the configuration and the front end user workflow.”

Valerie Hromatka, Revenue Cycle Manager at Covia
